CONSUMER GROUP ENDORSES WAXMAN

The Consumer Federation of America, one of the nation's oldest and most respected consumer protection agencies, unanimously endorsed Democratic Congressman Henry A. Waxman for reelection to the House of Representatives.

Consumer Federation director Stephen Brobeck praised Waxman for "exemplary sensitivity to consumer issues" and for having shown "leadership and courage in standing with consumers on important and controversial issues."

Evaluations of incumbent congressmen such as Rep. Waxman are based on a study by the Consumer Federation of America of the Congressman's voting record on bills of direct concern to the buying public.

On learning of the endorsement Rep. Waxman said,

"I am proud and gratified to have the support of the Consumer Federation of America. I have always given top priority to protecting consumers from shoddy merchandise and low quality services. During this time of inflated prices it is particularly important that the government help people avoid consumer rip-offs."
